

DEMONSTRATION FOR A DIGNIFIED RELOCATION of people evicted from 51, bd Dahdah

On Thursday, November 14, the residents of 51 Boulevard Dahdah underwent an evacuation ordered by the city council. After a week in a gymnasium, SIAO 13* finds them places in indecent hotels. However, as soon as the evacuation took place, the city council should have taken responsibility for all the occupants in accordance with the obligations set out in the relocation charter ("Charte pour un relogement digne"). These solutions have not yet been implemented. Moreover, without the mobilization of the displaced and supporters and in the face of threats from some municipal agents, the occupants of Dahda Boulevard would have been on the street the next day. However, it's highly likely that hotel delays will be endless and will lead to inappropriate proposals in view of their economic situation and the reception conditions of asylum seekers which the State, through OFII* and PADA*, is responsible. This echoes the unworthy housing policy in Marseille. We demand that the city of Marseille take its responsibilities without discriminating among the dislodged from Boulevard Dahda. We demand decent and adequate housing, not only for the displaced, but also for all people made homeless by the state and its impoverishment policies. Our demands remain the same as those made public at the press conference on Friday 22 November.

- That the city of Marseille immediately apply the charter for a dignified relocation
- That the EAPE carry out its missions and recognize as "occupiers in good faith" all persons dislodged from 51 Dahdah Boulevard
- That the OFII and its subcontractor PADA respect the rights of foreigners and ensure immediate accommodation for all asylum seekers including those in Dublin procedures and this for the whole length of their procedure
- That the State acknowledge that its deplorable management of accommodation as part of its asylum policy is making the business of sleep merchants prosper to the detriment of the most vulnerable people
- That the dislodged are all relocated in a sustainable manner and under conditions that meet their needs
- A dignified home for all
